Stage Dimensions

Stage area: Approximately 34'W X 32'L (if using 90 chairs). If you are using additional rows of chairs on the floor or sides, the stage area will be smaller.

Seating area: 32'W X 17'L Risers 4'x8' with an 8" rise.

Total area without seating: 34'W X 36'L from the back wall of the storage room to the start of the risers. Total length of the room is 58'.

Height: 13'10"H (grid sits below this height at approximately 12 feet) Because the floor is slightly graded, there height to the ceiling may differ slightly throughout the room.

Seating

Risers with interlocking chairs have seating for up to 120 people. Normally the theatre is set up to seats approximately 90 on the risers and one row on the floor at the front of the risers. To add chairs to 120, please add a row or two on the ground in front and some side seating. This will infringe on your stage size.
